

Making Life Smoother.

Q-Series™

Powerful AND quiet

Meet the strong, silent type.

They say it's the silent types that surprise you. While the Blendtec Q-Series is 10 decibels quieter than similar blenders, it still packs industry-leading power and performance.

COMMERCIAL

All the power without the noise.

It's a pity to drown out a nice ambience with blenders that have no behind-the-counter manners. The Q-Series™ keeps its operation on the down-low, so your customers can enjoy the atmosphere that draws them to your shop in the first place.

Standard Features

POWER

- Powerful 15-amp direct-drive blender motor
- 1800 Watts

CONTROLS

- No-tend touchpad controls
- Blue LCD display
- Programmable for up to 30 custom-made blend cycles

QUIET

- Fully enclosed, easy-to-clean blending station
- 10 db quieter than similar blenders

FOOTPRINT

- In-counter or countertop installation

VERSATILITY

- Compatible with Blendtec's patented FourSide™, WildSide™ and Twister™ Jars

Power, speed, consistency.

A 15-amp motor, combined with dead-simple, one-touch operation, means your Blendtec Q-Series will serve up menu items more quickly and consistently than any other blender.

Safety first.

In a hectic foodservice environment, it's critical to minimize safety risks. Only the Blendtec Q-Series offers the optional ABC (Advanced Blending Control) function that automatically shuts off the blender when the sound enclosure is raised. So your employees stay safe, and your business day goes off without a hitch.

Rapid Rinse Station™

blendtec
COMMERCIAL
BY *LANCER*

Save water, work, space and time. One rinse station to clean all blenders.

Compact, fast and efficient. The Rapid Rinse Station reclaims valuable counter space with its efficiently-reduced shape and size. It is perfect for stacking multiple Blendtec jars. Best of all, it can reduce exposure to harmful sanitizers that irritate the skin and by extension causing delays on the job.

What can you expect from the RAPID RINSER STATION?

Blendtec Rapid Rinse Station™

Build to last

The Rapid Rinse Station is made of a chemical-resistant plastic. A stainless steel spray nozzle ensures trouble-free usage.

Smart Design

Compact and discreet, the Rapid Rinse Station fits neatly next to your Blendtec blender or dispenser. It features a closed valve system that prevents water leakage when water pressure drops.

Expanded coverage

Upon activation, water immediately covers 70% of the rinsing area (compared to only 30% in other rinsers).

Easy and versatile

Use the Rapid Rinse Station to rinse any container with a diameter of 8" or less (20 cm). Pitchers, blender jars, measuring devices—anything! A gentle push on the platform is all it takes to activate the spray.

RAPID RINSER STATION SPARE PARTS

Rapid Rinser

Available for purchase separately. By itself, the Rapid Rinser typically sits in a sink or basin, where rinsewater can drain effectively.

120° Coverage

Spray nozzle offers 120° coverage. Powerful jets clean containers in mere seconds.

Blendtec Rapid Rinse Station

Standard features

- EASY**
Simple to disassemble and clean
- CONTROL**
Easy one-push operation
- SAFE & STRONG**
Stainless steel nozzle for long-lasting, trouble-free operation
- VERSATILITY**
Effective for rinsing any container of 8" diameter or smaller

Four Side Jar™

RECOMMENDED LIDS

LATCHING LID

Preferred for non-sound enclosure models

FLAT (HARD & SOFT)

For sound enclosure models only

“ The FourSide jar’s square shape blends much better than traditional round jars.

The jar also generates more friction, heating soups and hot drinks quickly and easily. It’s also especially good for grinding grains and making smaller quantities.

1. Vortex

- 4-sided design forces ingredients back into the blade
- Faster speed of service
- No plunger needed to move ingredients around

2. Ergonomic

- Lightweight material for easy lifting and pouring
- 3 corners for simple pouring at multiple angles
- Easy to read jar markings in oz. and ml.
- Total capacity about 2 quarts = 1.8 L = 7,5 cups (metric)

3. Safe and Strong

- Made from durable Eastman Tritan copolyester
- BPA Free
- Blunt blade makes cleaning safe and simple

4. Customize

- Custom jar graphic available
- Custom jar colours for select models

The FourSide jar effectively harnesses the power of your Blendtec blender

NSF certified

BLUNT BLADE TECHNOLOGY
STRONGER
THAN TRADITIONAL BLADES

BPA-FREE FOURSIDE JAR
14 SECONDS
TO AN AMAZING BLENDED DRINK

The Blendtec blunt safety blade is thicker and stronger than other blades.

Made from impact-resistant, BPA-free copolyester.
Compatible with all Blendtec consumer blenders.

blendtec
COMMERCIAL
BY LANCER

Ideal to blend recipes with ice cream, nuts and grains, soups, smoothies, dips and batters.

The FourSide jar’s square shape and patented single-prong blade create a better blending vortex to micronize ingredients. This smaller jar is perfect for companies that sell lower volumes of blended product.

WildSide+ Jar™

“ Its extra-wide base, along with a more aggressive blade nearly 4-inches long, has helped the WildSide+ jar to raise the bar in the commercial blending category. ”

1. Ergonomic

- Lightweight material for easy lifting and pouring
- 3 corners for simple pouring at multiple angles
- Easy to read jar markings in oz. and ml.
- Total capacity is 3 quarts = 2.8 L = 11 cups (metric)

2. Safe and Strong

- Made from durable Eastman Tritan copolyester

3. Customize

- Custom jar graphic available
- Custom jar colours for select models

NSF certified

Blunt safety blade
10X STRONGER
than traditional blades

NSF APPROVED BPA-FREE WILDSIDE+ JAR

14 SECONDS

TO AN AMAZING BLENDED DRINK

The Blendtec blunt safety blade is thicker and stronger than other blades. Made from impact-resistant, BPA-free copolyester. Compatible with all Blendtec consumer blenders.

RECOMMENDED LIDS

LATCHING LID

Preferred for non-sound enclosure models

FLAT (HARD & SOFT)

For sound enclosure models only

blendtec
COMMERCIAL
BY **LANCER**

Ideal to blend larger volumes of recipes with ice cream, nuts and grains, soups, smoothies, dips and batters.

An exclusive, patented square design with a fifth side and large capacity produces thicker, faster blends and shorter waiting times for the customer.

Twister Jar™

PATENTED TWISTER LID

MINI GRIPPER LID

SPECTACULA

“ Simply add ingredients and twist the lid while blending.

This forces the mix back into the blade, achieving a perfect blend every time. ”

1. Vortex

- Patent-pending Twister lid with scraper tines force ingredients off the jar sides and back into the blending vortex

2. Ergonomic

- Lightweight material for easy lifting and pouring
- Comes with Blendtec Spatula specifically design for easy ingredients removal and cleaning
- Easy to read jar markings

3. Safe and Strong

- Made from durable Eastman Tritan copolyester
- BPA Free
- Blunt blade makes cleaning safe and simple

NSF certified

Blunt safety blade
10X STRONGER
than traditional blades

The Blendtec blunt safety blade is thicker and stronger than other blades. Made from impact-resistant, BPA-free copolyester. Compatible with all Blendtec consumer blenders.

NSF APPROVED
BPA-FREE JAR
14 SECONDS
TO AN AMAZING BLENDED DRINK

blendtec
COMMERCIAL
BY LANCER

Ideal to blend nut butters, hummus, thick shakes, salad dressings ...

The twister jar lets you expand your menu offerings, blending the world's thickets recipes. Nut butters, hummus, thick shakes, salad dressings and more. The thicker the better!

Frothing Jar

“ High capacity frothing

is finally here ”

ROOM TO BREATHE

2 quarts of total volume provides a huge capacity for producing frothed liquids and foam. Instead of repeatedly creating single servings, you can now produce in batches and serve several customers at once.

WAVE OF THE FUTURE

Our stainless steel blade features a “wave” blend which enhances the frothing capability - easily doubling the volume of many liquids. The blade works great for cold foam coffee, non-dairy milks, whipping cream, hot chocolate, syrup and more!

NSF certified

RECOMMENDED LIDS

LATCHING LID

Preferred for non-sound enclosure models

FLAT (HARD & SOFT)

For sound enclosure models only

blendtec
COMMERCIAL
BY **LANCER**

Ideal to blend cold foam, whipping cream, hot chocolate, syrup and more!

Soft Lid / Hard Lid™

“ Easy to install/remove,
Single piece (no plastic
insert) ”

SOFT LID

Compatible with:

- Four Side Jar
- WildSide Jar

HARD LID

Compatible with:

- Four Side Jar
- WildSide Jar

The Blendtec soft and hard lids are specifically designed for recipes such as ice cream, whipped cream and smoothies.

Locking Lid / Cone Lid™

“ Stacks well, Vented in the middle unlike soft/hard lid, Seal better than soft/hard lids ”

VANTED GRIPPER LID

Compatible with:

- Four Side Jar
- WildSide Jar

LATCHING CONE LID

Compatible with:

- Four Side Jar
- WildSide Jar

The Blendtec Locking lid and Cone lid can seal jars tightly; ideal while creating juices, cocktail drinks, and other liquid recipes.

Features and Benefits Blendtec have over competitor brands:

- Interchangeable jars which fit onto all of the blender bases
- Highest horsepower
- Most powerful motor
- More blend programs as well as unlimited customised programs via USB on Stealth and Connoisseur
- Blendtec BPA free jars are made from a copolyester material that has greater chemical resistance, has improved sound dampening qualities and contains no BPA (bisphenol A). Many consumers are looking for alternatives to polycarbonate and we are glad we can provide the BPA free jar.
- Made in America (Hamilton beach – China)

Warranty

- 3 year parts, 1-year labour
- Jars - 12 months (Hamilton Beach only 3 months, Vitamix 12 months)
- Blade – Lifetime (Vitamix only 12 months)
- Brushes and Armatures - unwarrantable items.

BPA Free

- BPA is a chemical used in the lining of some food and beverage packaging to protect food from contamination and extended shelf life. It is also used in non-food products. Small amounts of BPA can migrate into food and beverage from containers potentially causing health risks and harm (Food Standards Australia New Zealand 2015)

Commercial in Confidence.

Jar Options

FOURSIDE™

The HP3A package includes a jar and cookbook. Our FourSide jar is ideal for soups, smoothies, ice cream, dressings, and so much more. Designed with a wide base for fast food removal, ergonomic handles for easy pouring, and clearly marked measurements for following recipes. This makes food preparation fast, simple and fun.

WILDSIDE™

Our WildSide jar blends larger batches in less time than the FourSide jar and handles the toughest tasks with less effort. Even the thickest smoothies can't escape the vortex-altering wiles of our patented fifth side. It virtually eliminates air pockets for fast, thorough blends.

Blendtec®

HP3A
homeblender

Easy to Use

With Smart-Touch Technology™ the HP3A homeblender allows you to push a button and move on to other food preparation while the blender does all the work. The Blendtec HP3A homeblender's Smart-Touch cycles speed up and slow down according to your selected cycle and automatically shut off when the cycle is complete.

Choose from 25 pre-programmed blend cycles or manually control the machine by using speed up, slow down, and pulse buttons. Four frequently used blend cycles can be stored on the touchpad.

Blendtec's unique jar design and wing-tipped blade pull the mixture down through the blade, micronizing ingredients for the smoothest texture possible. Blendtec's commercial grade motor and patented jar features eliminate the need for stir sticks or tampers.

Healthy Lifestyle

Tasty shakes, whole juices, and fresh fruit smoothies created in the HP3A homeblender makes having a healthy lifestyle simple, easy and fun for the whole family!

Blending fruits and vegetables preserves the nutrients and fiber that are lost in juicing. Even seeds, stems and cores, the most nutrient-rich parts, are micronized in the HP3A homeblender allowing you to receive all their available nutrients.

The versatility of Blendtec's HP3A homeblender gives you the ability to blend hot soup from fresh raw vegetables, and in the same blender make frozen desserts, including ice cream, and of course smoothies.

The home blender can grind whole grains, make bread dough, and much more in 90 seconds or less.

Easy to Clean

The sleek design with a flat, sealed touchpad eliminates cumbersome knobs and buttons, which allow the machine to be wiped clean in seconds.

Cleaning the jar is fast and easy too – just add warm water, a drop of soap, press pulse a few times, rinse, and the jar is ready for your next recipe.

Seconds or less
