QUALITY MATTERS™

CATALOGUE

20
20

Established in 1978 as a family business, The Bromic Group has grown to provide more than 100,000 high-quality products across three distinctly different divisions, supplying industries both internationally and throughout Australia.

Bromic Refrigeration was established in 1999, expanding from a core focus on plug-in refrigeration to sell more than 100,000 units into the Australian market across an expansive range of over 200 products.

As a division of the innovative and globally active Bromic Group, Bromic Refrigeration draws upon a pool of technically-talented engineers, experienced sales staff and friendly customer service representatives to satisfy the unique needs of businesses through a personalised, solution oriented approach to each and every customer.

Bromic is an ISO9001-certified company, committed to not only their exceptional corporate culture, but also the strength of long-standing supply partnerships with internationally acclaimed manufacturers that allow Bromic to distribute some of the highest value equipment in the country.

Quality matters to Bromic Refrigeration and we believe it to be an essential factor in the success of our products, carrying out rigorous product testing to ensure reliability while continuously improving energy efficiency as part of the MEPS/GEMS scheme.

Partnered with world-renowned suppliers such as IARP, Simag, Coreco and Zanotti. Bromic Refrigeration is committed to distributing high-quality, durable equipment suited to the challenges presented by Australian businesses who understand that quality matters.

Legend

Green Cooling™

Bromic refrigeration leads the way with continued development in utilising energy efficient cooling solutions to help protect the planet. Introducing **Green Cooling**: Natural refrigerants which do not harm the ozone layer and have practically zero impact on global warming. Look for our Green Cooling logo for products manufactured with a natural refrigerant.

EXTRA CARE WARRANTY SERVICE

Bromic Extra Care gives you a one-stop support service from Bromic experts. Most issues may be resolved in a single call. Our nationwide coverage means help is never too far away when you need it. Extra Care is standard with every Bromic Refrigeration product, included at no extra charge.

1 YEAR Warranty LABOUR & PARTS **2 YEAR Warranty LABOUR & PARTS** **WARRANTY 3 YEAR***

All Bromic Refrigeration products are sold with an Extra Care warranty. Terms and conditions vary across the range, look for the warranty icons next to your products of choice.

PROFESSIONAL RANGE

The **Bromic Professional Range** is an extensive range of high performance equipment that is specifically manufactured to Bromic's highest quality standards to meet the demands of ultra busy kitchens, restaurants, cafes, and other food service and retail applications. Our Professional series range includes equipment from our exclusive global partners who are all leaders in their fields including Zanotti, IARP, Coreco, Purever, Simag and others.

power consumption

BROMIC
REFRIGERATION

Bromic's Countertop Merchandiser range entices impulse purchases by packaging products in a stylish unit surrounded on all sides by safety glass, achieving exceptional product visibility.

07. Countertop Beverage Chillers

Bromic's Countertop Beverage Chillers offer a stylish and durable display option for those wishing to encourage impulse beverage purchases at the point-of-sale.

LED strip lighting in all four corners maximises product visibility from all angles while purpose-designed ventilation guards ensure the unit's highly-efficient fan-forced motor can cool the cabinet evenly.

Options:

• Curved or flat glass to suit your style

• Colour match with white or black

• Illuminated light box decals highlight branding (POA)

• Operate at full capacity with 3 or 4 shelves + base

09. Countertop Freezer

Bromic's Countertop Freezer stylishly surrounds frozen goods in stainless steel while tempting passers-by to treat themselves with what lies behind its 4 triple-glazed safety glass sides.
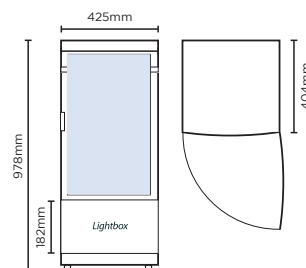

Featuring simple static cooling above and below all 3 fixed shelves along with digital temperature control, this unit perfectly presents frozen goods at the point-of-sale.

BROMIC REFRIGERATION

Adjustable thermostat for accurate temperature maintenance

Powerful fan for even circulation of cold air

Metal door frame for durability and reliability (display units only)

Large illuminated display for maximum impact

Self-closing doors minimise temperature loss

Double-glazed (chillers) or triple-glazed (freezers) safety glass doors increase energy efficiency

High-density polyurethane insulation keeps temperature and energy consumption low

Adjustable shelving for flexibility in display configuration (excluding static freezers)

High-impact internal lighting for perfect product presentation

Lockable castors make movement and placement easy

BROMIC
REFRIGERATION

Bromic's Vertical Display & Storage range offers complete versatility, available in one-, two- and three-door configurations across a wide range of temperatures and styles.

13. Upright Display Chillers & Freezers:

Bromic's Upright Display Chillers and Freezers offer reliability in a stylish casing, creating display solutions suited to self-service retail applications.

These dependable units achieve exceptional efficiency while maintaining longevity through simplicity.

16. LCD Video Chiller:

Bromic's LCD Video Chiller introduces exciting movement to point-of-sale marketing, demanding the attention of customers by overlaying refrigerated products with relevant advertisements or imaginative entertainment.

This unit's 50-inch LG Ultra High Contrast LCD display resides within a double-glazed door and is able to switch rapidly between transparency and video content without sacrificing quality in bright environments.

21. Upright Storage Chillers & Freezer:

Bromic's Upright Storage Chillers and Freezers prioritise reliability through simplicity to create an affordable storage solution.

This unit's corrosion-resistant outer casing is insulated on all four sides to minimise energy consumption by allowing the refrigeration system to operate efficiently only when it is needed.

23. Fan-Forced Upright Display Chillers & Freezers:

Bromic's Fan-Forced Upright Display Chillers and Freezers are packed full of premium perks to ensure perfect performance in high-volume, self-service retail applications.
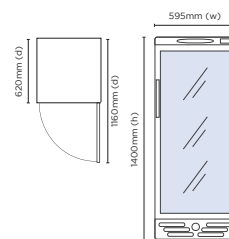

Defrosting and temperature are automatically regulated by the unit's digital controller while fast fan-forced cooling, heated glass doors and ambient ratings combine to keep products primed even in the harshest of Australian conditions.

maintenance

Bromic's Bar Chillers & Freezers have been designed specifically for installation under an industry-standard bench and are available in one- to four-door configurations.

33. Back Bar Display Chillers

Bromic's Back Bar Chillers are the perfect freestanding refrigerated display solution for those seeking versatility and reliability.

High-impact LED lighting highlights products through this unit's hinged or sliding double-glazed safety glass doors while powerful fan-forced refrigeration enables rapid cooling.

35. Fan-Forced Underbench Display & Storage Chillers & Freezers

Bromic's Fan-Forced Underbench Chillers and Freezers are premium performers, developed specifically to withstand heavy use in the hospitality industry and to slot seamlessly underneath a industry-standard bench.

Featuring powerful fan-forced cooling, these units are capable of storing sensitive stock, such as meat, dairy or fresh produce, alongside beverages while also utilising Gastronorm 1/1 sizing to offer versatility in high-volume applications.

Storage Freezer:

38. Single Door Underbench Display & Storage Chillers & Freezers

Bromic's Single Door Underbench Chillers and Freezers offer versatile storage solutions across a wide temperature range.

This unit's insulated stainless steel structure and Dixell digital temperature controller allow the refrigeration system to reliably cool practically any product while achieving exceptional energy efficiency.

These units are classified as storage cabinets and designed for holding foodstuffs which require some preparation or processing before sale

BROMIC REFRIGERATION

Heat resistant tempered glass or stainless steel lid offer storage and display flexibility

High load limit maximises storage

Perfect seal for energy efficiency

Integrated lock and key secures merchandise

Fully populated with durable PVC-coated storage baskets (glass top only)

BROMIC

-15.2℃

Digital temperature display enables quick quality control

Quick-drain plug simplifies defrost and cleaning

Corrosion-resistant construction provides longevity

2m lead and 10A plug included for simple plug-in installation

Castors make movement & placement easy

BROMIC
REFRIGERATION

Bromic's European-built Chest Freezers offer reliable and efficient refrigeration, available with a number of lids to suit specific applications, such as display, storage or as an additional standalone work space.

45. Angled Glass Top Chest Freezer

Bromic's Angled Glass Top Chest Freezers prioritise product visibility by tilting its curved glass top towards customers.

These units feature easy-clean condensers to keep condensation on the lockable sliding glass doors to a minimum in even the harshest Australian conditions.

46. Flat Glass Top Chest Freezer

Bromic's Flat Top Chest Freezers offer versatility in frozen storage and retail display across a wide capacity range (191L-670L).

Provided completely populated with PVC-coated storage baskets, these units feature easy-clean condensers to keep condensation on the lockable sliding glass doors to a minimum in even the harshest Australian conditions.

47. Flat Stainless Steel Top Chest Freezer

Bromic's Flat Stainless Steel Top Chest Freezers are designed to provide a durable workspace and deep-freeze storage solution all-in-one.
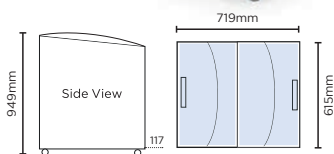

Suitable for storing fresh produce, such as meat or vegetables, for long periods at as low as -25°C, even when in ambient temperatures as high as 35°C. These units are perfect for maximising bench space while minimising wastage.

iarp

Plug-in design offers
flexible unit placement
and simplifies installation

Corrosion-resistant
construction provides
longevity

Digital temperature
control allows
precise temperature
maintenance

Roll-bond condenser
for simplified cleaning
and reduced heat
emission

iarp

IARP's IRENE Island Freezers provide the perfect plug-in frozen display solution, creating seamless island displays that emit minimal heat and feature semi-automatic defrost functionality.

53. Irene ECO Supermarket Freezer

Bromic's Irene ECO Supermarket Freezers have been researched and developed in-house in conjunction with internationally-acclaimed manufacturer IARP to create the perfect standalone frozen display solution.

Eliminating prior planning approval and expensive installation, these exceptionally-built self-contained units combine to create impressive island or wall displays that are simply powered through common 10A plugs.

Optional Extras

Bromic Irene ECO Panel Kit
Bromic's Irene ECO Panel Kits enable seamless connection of multiple units to create a single island display, filling gaps at the top (35160130003) and sides (35160130001) while retaining necessary airflow.

BROMIC REFRIGERATION

Toughened glass canopy offers greater visibility while maintaining hygiene

Electronic controller maintains correct temperature

Modular profile allows for single row of 5L tubs or double rows of 2.5L tubs (excluding GD0007S)

High-impact LED lighting for perfect product presentation (excluding GD0007S)

Automatic defrost with hot gas evaporation eliminates downtime (excluding GD0007S)

Castors make movement & placement easy

Additional internal storage for seamless tub interchange during service (excluding GD0007S)

Maintenance free, spiral type condensor for convenience (excluding GD0007S)

BROMIC
REFRIGERATION

Bromic's Gelato Display range presents a number of premium standalone storage and display solutions that are perfect for preserving frozen treats at their ideal serving and storage temperatures.

57. Chest Freezer Display

Bromic's Chest Freezer Gelato Display offers an entry-level unit with the versatility to operate as a chest freezer when not tempting customers with frozen treats.

Featuring a sliding glass lid, curved canopy and distinctive styling, this unit excels in attention-grabbing, front-of-house display.

57. Delight Gelato Display

Bromic's Delight Gelato Displays have been developed in conjunction with internationally-acclaimed manufacturer IARP to offer the ultimate standalone gelato display and storage solution.

With the ability to deep freeze gelato in storage before bringing them up to serving temperature on display, the Delight range can be relied upon to perfectly preserve a range of frozen treats while presenting them proudly.

REFRIGERATION

Delicatessen Displays

> " Bromic delicatessen displays will let your customers view your stock easily while keeping it cool and fresh. "

BROMIC
REFRIGERATION

Corrosion-resistant construction ensures longevity

2-shelves + base and 3-shelves + base maximises product display area

Removable shelf inserts for easy cleaning

Sliding rear door minimises temperature loss

Toughened safety glass creates a durable display & service surface

High-impact LED lighting on each shelf maximises product visibility & captures attention (cold & ambient)

Adjustable shelving for flexibility in display configuration

Soft-cool refrigeration maximises freshness

Castors make movement, placement & cleaning easy

Stainless steel body for improved quality & durability

Invisible heat elements & an internal air curtain eliminates condensation

BROMIC
REFRIGERATION

Bromic's Food Display range offers stylish, purpose built solutions for showcasing your fresh products. Choose from our Hot, Cold and Ambient units, with matching profiles providing a visual consistency for customers whilst beautifully displaying goods.

75. Cold Food Displays

Bromic's Cold Food Displays offer a stylish, purpose-built display solution for refrigerated delicacies such as cheese, cakes and confectionary.

Featuring uninterrupted views from heated glass on front top and sides prevent condensation, three fully adjustable shelves and removable glass for cleaning, these units maintain moisture at low temperatures to ensure that products on display taste as good as they look.

77. Hot Food Displays

Bromic's Hot Food Displays offer a stylish, purpose built, high humidity display solution for hot food display applications.

Featuring three fully adjustable shelves, easily removable glass for cleaning, the units include bain marie wells to increase humidity as required for full control.

78. Ambient Food Displays

Bromic's Ambient Food Displays offer a stylish, purpose-built display solution for displaying cakes and delicacies at ambient temperatures.

Featuring three fully adjustable shelves, easily removable glass for cleaning, offering full functionality and flexibility.

Italian-made machine

BROMIC
REFRIGERATION

Bromic's Ice Machine range features both self-contained and modular units, operating across a range of production rates and ice styles to provide the perfect solution for any application.

86. Self-Contained Solid Cube Ice

Bromic's Self-Contained Solid Cube Ice Machines provide premium-quality cubes that are perfect for beverage-focused applications. Individually creating large, crystal-clear cubes that maximise liquid displacement while cooling quickly, these self-contained units excel underneath or above counters and are available in a range of sizes.

88. Self-Contained Hollow Ice

Bromic's Self-Contained Hollow Ice Machines present the perfect solution for high-volume venues with diverse ice requirements. Quickly creating lightweight cubes that maximise surface area for rapid cooling, these self-contained units excel underneath or above counters and are available in a range of sizes.

90. Self-Contained Flake Ice

Bromic's Self-Contained Flake Ice Machines continuously produce dry, shapeless ice that is ideal for food display and rapid cooling. These small granules of ice are close to their melting point, making them perfect for delicate produce that could be damaged by more durable forms of ice, such as fresh seafood.

91. Modular Half-Dice Ice

Bromic's Modular Half-Dice Ice Machines are suited to high-volume applications where crystal-clear, general-purpose ice is required in bulk. Rapidly producing large slabs of slow-melting half-dice ice, these heavy-duty units can comfortably keep up in peak-periods or produce a surplus to be sold on the side.

92. Modular Flake Ice

Bromic's Modular Flake Ice Machines continuously produce dry, shapeless ice on a commercial scale that is ideal for food display and rapid cooling. These small granules of ice are close to their melting point, making them perfect for delicate produce that could be damaged by more durable forms of ice, such as fresh seafood.

93. Stainless Steel Storage Bins

Bromic's Stainless Steel Storage Bins provide a hygienic and sturdy storage solution for modular ice machines.

93. Ice Machine Water Filters

Bromic's Ice Machine Water Filters are an essential part of clear ice production. In addition, ice machine life can be drastically extended by filtering out damaging particulates found in tap water.

94. Daily Ice Production Overview Chart

REGULAR DICE

HI

Hollow Ice

Hollow ice is produced individually around refrigerated fingers to maximise surface area and cooling potential. These pure, lightweight cubes are produced rapidly, offer greater surface area for quicker cooling, and are gentler on blender blades.

Ice Dimensions

35mm
36mm
HOLLOW ICE
36mm

Flake Ice

Flake ice is produced continuously in small, fast-melting granules. This dry, shapeless ice is close to it's melting point, allowing it to cool quickly without damaging delicate product or refreezing its meltwater.

WaterMark ™

Bromic Ice Machines are all WaterMark™ approval
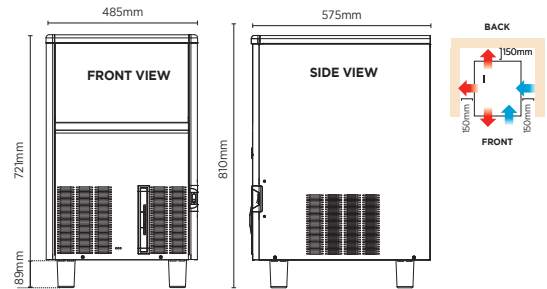

agion ®
Nature's antimicrobial

Agion® is a silver based antimicrobial compound moulded directly into key ice-machine components. This built-in compound reduces the growth of bacteria, micro-organisms, algae, mould and slime on ice-machines surfaces.

ZANOTTI

ZANOTTI

* (Drainage may be required in extreme ambient conditions or when storing high-water-content produce)

BROMIC
REFRIGERATION

Bromic Refrigeration are the exclusive Australian distributor of Zanotti's industry-leading cool room refrigeration systems, providing unparalleled functionality and high-performance in Australian conditions.

103. Zanotti Drop-In Refrigeration Systems

Zanotti's Drop-In Refrigeration Systems offer the highest performance and simplest installation within the drop-in category, supplied as a single-phase, plug-in unit with a prewired bulkhead light and a hot gas vaporisation system that eliminates drainage requirements.*

GU

104. Zanotti Slide-In Refrigeration Systems

Zanotti's Slide-In Refrigeration Systems offer the highest performance and simplest installation within the slide-in category, supplied as a single-phase, plug-in unit with a prewired bulkhead light and a hot gas vaporisation system that eliminates drainage requirements.*

GU

106. Zanotti Rotary Refrigeration Systems

Zanotti's Rotary Refrigeration Systems are purpose-designed for the portable preservation of fresh produce, delivering powerful refrigeration from within a package that requires no additional protection to operate externally, whatever the weather.

BROMIC SMART-HEAT™

Divided into our distinct Platinum and Tungsten ranges, all Bromic outdoor heaters are designed and engineered in-house and are constructed from premium materials to create products that strike the perfect balance between performance, reliability and beauty.

PLATINUM SMART-HEAT™ ELECTRIC

Our Platinum Smart-Heat™ Electric heater is specifically suited for low-clearance and design-focused spaces in mind.

These units are constructed from premium materials and able to heat areas as large as 10m.

Available in Black or White finish.
Mount options: Recessed, Wall or Ceiling.

Black
• 2300W (Part No. 2620240)
• 3400W (Part No. 2620245)

White
• 2300W (Part No. 2620247)
• 3400W (Part No. 2620248)

PLATINUM SMART-HEAT™ GAS

The Platinum Smart-Heat™ Gas combines elegant aesthetics with industry-leading performance to offer value and reliability to premium venues and homes.

Available in two different sizes across both LPG and Natural Gas configurations, these units are able to directionally project a comfortably diffused radiant heat across areas as large as 20m^2.

Mount options: Recessed, Wall or Ceiling.

• 300-Series LPG (Part No. 2620130-1)
• 300-Series Natural Gas (Part No. 2620131-1)
• 500-Series LPG (Part No. 2620140-1)
• 500-series Natural Gas (Part No. 2620141-1)

DESIGN SERVICE

As part of our complementary service, Bromic Heating Specialists will custom design and tailor a solution to best heat your outdoor living and entertainment spaces.

Learn more at **bromic.com/designservice**

WIRELESS CONTROLLERS

With the option to connect groups of heaters from a single point as well as dimming heating outputs, the Smart-Heat™ range of controllers provide a simple, yet powerful solution to controlling your environment.

Learn more at **bromic.com/gowireless**

TUNGSTEN SMART HEAT™ ELECTRIC

The Tungsten Smart-Heat™ Electric brings high-performance radiant heating to open outdoor applications and semi-enclosed spaces alike.

These units are available in four sizes and provide a wide wall of heat across a vast footprint, maximising the comfort created by each unit to heat areas as large as 15m².

Mount options: Recessed, Wall or Ceiling.

Black
- 2000W (Part No. 2620262)
- 3000W (Part No. 2620263)
- 4000W (Part No. 2620264)
- 6000W (Part No. 2620265)

TUNGSTEN SMART-HEAT™ GAS

Powered by highly-efficient gas-fired ceramic burners, the Tungsten Smart-Heat™ Gas utilizes an open mesh shield to prioritize performance.

Available in two different sizes across both LPG and Natural Gas configurations, these units provide powerful heating in areas as large as 20m².

Mount options: Recessed, Wall or Ceiling.

- 300-Series LPG (Part No. 2620330-1)
- 300-Series Natural Gas (Part No. 2620331-1)
- 500-Series LPG (Part No. 2620340-1)
- 500-Series Natural Gas (Part No. 2620341-1)

TUNGSTEN SMART-HEAT™ PORTABLE

It's neutral black finish, and award-winning design makes it a piece of modern art.

The Tungsten Smart-Heat™ Portable heater offers efficient directional heat and a versatile heating solution for the outdoor settings.

It's modular construction with built-in wheels allows for easily maneuverability throughout tighter spaces.

Heat Output: Coverage of up to 20m², the Tungsten Smart-Heat™ Portable delivers a widespread heat field of up to 4m wide & 5m deep.

- Portable: (Part No. 2620350)

BROMIC®
HEATING

BROMIC PLUMBING & GAS

Bromic Plumbing & Gas has been a core facet of the Bromic Group's operations since inception, supporting the daily operations of plumbers and tradespeople with high-quality products for decades and growing to become trusted by trade across Australia, New Zealand, and the Pacific Islands.

SEALANTS & LUBRICANTS

Bromic Plumbing & Gas are a complete Sealants & Lubricants solutions provider with products from trusted international brands LA-CO & LOXEAL. Bromic provide the best suited sealant or lubricant for the job. Our range of sealant & lubricant products comply with all required approvals including the Australian Gas Association (AGA) and WaterMark compliance.

REGULATORS

Bromic Plumbing & Gas provide a wide variety of regulators to suit applications from recreational to professional, in both Natural Gas & LPG (propane). Our range of regulators includes everything from single stage to dual stage regulators with both manual & automatic changeover options available.

SOLDERING & WELDING

Bromic is the leading Australasian supplier of gas-based soldering and brazing tools and accessories in the industrial, HVAC, plumbing and hardware markets. Product design and quality are specifically engineered for trade environments so that trade consumers can rely on the Bromic, BernzOmatic, Sievert and LA-CO brands to get their job done.

HEATING SOLUTIONS

Our heating products cover commercial, industrial, outdoor & indoor applications. Our SUPAHEAT heater is for indoor use while our HEAT-FLO™ Tile heaters can provide outdoor heating at an accessible price point. The HEAT-FLO™ blow heaters are highly efficient and provide instant & economical heat for industrial or commercial applications.

PUMP SOLUTIONS

Our range of pumps offers a complete solution for the transfer of water. Bromic Waterboy™ diverse range offers both submerged and external pump solutions in versatile configurations to fulfil the needs of all rainwater hervesting systems.

VALVES

Bromic provide a variety of valves available in a number of handle types and thread configurations, our valves offer reliability and affordability in both gas and water applications. Our valves come with AGA or WaterMark approval depending on the valve application.
HOSE CONNECTION

Trusted by Trade™, Bromic gas and water hoses are available in a vast variety of lengths, materials and connection types. Our hoses offer reliability and affordability, with all Bromic gas hoses having the Australian Gas Association (AGA) approval. Bromic gas and water hoses are available in standard lengths ranging from 200mm to 3000mm with non-standard lengths available as a custom order.

TEST EQUIPMENT

Bromic offer a complete range of professional test equipment suited for plumbing, HVAC and pressure testing applications. Trusted by trade, Bromic test equipment are designed to make the job easier, helping to save on both money and time.

COOKING & OUTDOORS

Bromic's outdoor products and accessories are designed to specifically meet the challenges of caravan and marine applications. Bromic outdoor cookers withstand the rigours of outdoor activities and can be easily fitted with the number of available hoses and adaptors specific to the leisure industry.

BROMIC®
PLUMBING & GAS

For more information on Bromic plumbing visit **bromic.com/plumbing** or email **plumbing@bromic.com**

All Bromic products are manufactured to the highest quality standard and are supported by our Extra Care Service Warranty, including guarantees against any material or workmanship defects; guarantees that cannot be excluded under Australian Consumer Law. To ensure you are up to date with all the Terms & Conditions associated with the purchase of a Bromic unit
